Schema Foratura ante / Doors drilling

N = SORMONTO SPALLA MOBILE / WARDROBE SIDE OVERLAP

Montaggio ante / Doors assembling

Posizionare l'anta (interna ed esterna) sull'apposita sede del profilo superiore.
Place the door (the inside and the outside one) onto the appropriate seat of the upper profile.

Per una corretta chiusura del sistema senza sobbalzi dell'anta, i fermi superiori ed inferiori devono iniziare la fase di lavoro contemporaneamente.
To ensure the system closes correctly without the door jolting, the upper and lower soft-closing stoppers must start operating at the same time.

Lunghezza vite / Screw length

B = 16	A = 25
B = 18	A = 25
B = 20	A = 30
B = 22	A = 30
B = 24	A = 30
B = 26	A = 35
B = 28	A = 35
B = 30	A = 35

Per un corretto funzionamento del sistema bisogna lasciare un'aria minima di 0.5 mm tra lo spazzolino parapolvere e il mobile.

To ensure correct system operation, leave a minimum 0.5 mm space between the dust excluder and the furniture unit.

Montaggio guide / Guide assembling

Sistema a due ante con fermi deceleranti in apertura e chiusura / Two-doors system with closing and opening deceleration stoppers

JUNIOR-6

Система за плъзгащи врати за гардероб с плавно

Цена на комплект механизъм Junior-6 за гардероб с 2 врати с плавно
170,77 лв с ДДС /без кант гръжки и обтегачи, с 3 метра релса/

1 Junior-6 система за плъзгащи врати

Junior-6 с плавно INDAmatic

Подобрени колички, благодарение на долните им лагери и трите допирни точки на движение, които пречат за нежелано клатене на вратата, но преди всичко е известен с автоматичното си и постепенно меко затваряне.

Двойна горна релса

Обтяжки за врати за гардероби

Инструкция за монтаж

Поставете една лява шпилка и една дясна шпилка в алуминиевите профил, завийте ги с централната гайка. Поставете всичко в направените канали на вратата и фиксирайте с винтове горната, долната и централната капачки.

Препоръчва се монтаж само на 1 обтяжка на врата с широчина до 750 мм. При по-широки врати се поставят по 2 обтяжки.

Обтяжка за врата (шпилки, капачки, покриващ профил, централна гайка) с дължина 2 240 мм:

Код: 742-0015CE

Цена: 26,26 лв с ДДС за 1 брой

Изрези във вратата:

Обтяжки за врати за гардероби

Как се регулира позицията на вратата с помощта на обтяжките

В случай, че вратата е в позиция 1, за да се изправи, завъртете гайката в посока 3, и обратно за да застане вертикално вратата от позиция 2, завъртете гайката в обратната посока 4.

Обтяжки за врати за гардероби

/комплект за 1 врата с шпилка 1728 мм **18,72 лв с ДДС**/

Препоръчва се да се използва при врати с дебелина от 16 mm и нагоре, и високи над 2,600 mm.

Комплект за обтягане на шпилки за обтяжки

	Ког	Цена, лв с ДДС	
Никел	306-754 000 063	8,82	50
